## INTRODUCTION

I am completing a degree in Computing (Software Engineering), I have great admiration for those who realize their full potential and would one day like to count myself among them. I develop software solutions for customers to improve sales and increase effectiveness.

## EDUCATION

Belgium Campus, Pretoria,  
South Africa  
Bachelors of Computing:  
Software Engineering

## EXPERIENCE

*May 2019 - Present*  
Web Developer • Freelancer • Annagoed.co.za

I have acted as the developer for an online store and marketplace as well as an online services liaison.

## KEY SKILLS

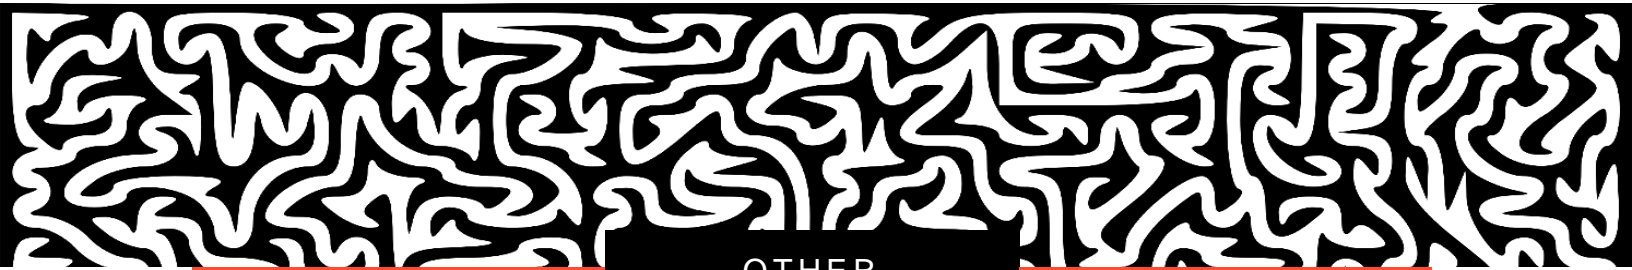

.NET Developer  
Microsoft SQL Server  
Project Management  
Agile Development  
Python  
WordPress

## PROJECTS

Hackthewaste.com – Hackathon 2019&2020  
International University Project – Penn State (Aquaponics)  
12 Certifications including “Enterprise Design Thinking” from IBM

## LEADERSHIP

Currently, Technical board member of the Student Representative Counsel at Belgium Campus
